**Advanced Medical Imaging Consultants' Dr. Jean Paquelet appointed to Chair ACR Breast Ultrasound Accreditation Program Committee**

Dr. Jean R. Paquelet has been appointed as Chair of the American College of Radiology (ACR) Breast Ultrasound Accreditation Program Committee. This is a national committee that sets clinical and technical standards for the voluntary breast ultrasound and breast ultrasound biopsy programs. The Breast Ultrasound Accreditation Program provides facilities performing breast ultrasound and ultrasound-guided breast biopsies peer review and constructive feedback on their staff's qualifications, equipment, quality control, quality assurance, accuracy of needle placement and image quality.

Dr. Paquelet is a Fellow of the American College of Radiology and has served as a reviewer for the ACR's breast ultrasound, breast MRI, stereotactic breast biopsy and mammography accreditation programs. Dr. Paquelet came to AMIC in 2008 from Grant Medical Center in Columbus, Ohio.

Advanced Medical Imaging Consultants, P.C. has provided diagnostic services for the Northern Colorado region for over three decades, expanding to serve Southern Wyoming and Southwest Nebraska medical communities as well. AMIC radiologists also provide care for many rural and smaller communities via a Picture Archiving and Communications System (PACS). With PACS, local physicians can log on to a secure, HIPAA-compliant website and view a complete study, written report, and key images of their patients' exams without the need for their patients to travel long distances.

For more information about Advanced Medical Imaging Consultants radiologists or services, please contact Terry Klahn at [t.klahn@advmedimaging.com](mailto:t.klahn@advmedimaging.com), or 970-484-4757.
