Advanced Medical Imaging Consultants Announces Deborah Z. Gunderson, MD as New Women's Imaging Medical Director

Deborah Z. Gunderson, MD

Advanced Medical Imaging Consultants is pleased to announce that Dr. Deborah Z. Gunderson will assume the new position of AMIC Women's Imaging Medical Director effective July 1, 2010.

Dr. Gunderson will oversee all breast related imaging including mammography, breast ultrasound, and breast MRI at all sites served by AMIC. AMIC serves Poudre Valley Hospital Breast Diagnostic Center, The McKee Breast Center, and outreach sites providing Women's Imaging which includes sites in Southern Wyoming, Western Nebraska and Eastern Colorado. AMIC employs radiologists who are fellowship trained in breast imaging.

Dr. Gunderson joined Advanced Medical Imaging Consultants in August of 2003. Dr. Gunderson completed her fellowship in nuclear radiology at Sacred Heart Medical Center in Spokane, Washington where she also completed her diagnostic radiology residency. Dr. Gunderson received her medical degree from the University of Utah School of Medicine, in Salt Lake City UT.

Advanced Medical Imaging Consultants, P.C. has provided diagnostic services for the Northern Colorado region for over three decades, expanding to serve Southern Wyoming and Southwest Nebraska medical communities as well. AMIC radiologists also provide care for many rural and smaller communities via a Picture Archiving and Communications System (PACS). With PACS, local physicians can log on to a secure, HIPAA-compliant website and view a complete study, written report, and key images of their patients' exams without the need for their patients to travel long distances.

For more information about Advanced Medical Imaging Consultants radiologists or services, please contact Terry Klahn at t.klahn@advmedimaging.com, or 970-484-4757.
